### **PRESIDENT'S REPORT**

As the weather is getting colder, it is time for some of us to winterize our "D's" and others will prepare for the journey to warmer climates for the winter. Whether you go to a warmer location or if you winterize, remember to do the necessary preventative maintenance. Check the owner's manual to determine what should be done. Don't forget, paper filters such as the air filter and the air dryer assembly are time sensitive as well as dirt sensitive and should be changed. The elements can separate and damage the coach. If you are storing the coach remember to drain the water heater and holding tanks. Another important item to check is the tires. Make sure the air pressure is correct and check the age as well. If they are five years old or older, consider replacing them.

If you are storing the coach, also remember to shut down the batteries and open the refrigerator. Well, enough of that, I'm sure we all know what to do.

Toni Calzone is working on a Blog for the Mason-Dixons and she would like to have photos of the rallies we have had in the past to put on the Blog. If you have any items that might be of interest to all, contact Toni and arrange to get her the photos.

We have people working on rallies for 2009 and as soon as we get some confirmed dates, they will be posted on the DOAI web site as well as put in our newsletter.

Let Alice and me take this time to wish all a Happy Thanksgiving and if you are traveling this Thanksgiving, may your travels be safe.
